SUMMARY

Data engineer with 5 years of experience building large-scale data pipelines and analytics infrastructure using Python and cloud platforms.

EXPERIENCE

Senior Data Engineer, Kestrel Analytics GmbH (2021 - Present)

- Designed data pipelines using Python, Airflow, and Kafka processing TBs of data daily
- Built internal APIs using FastAPI to serve processed analytics data
- Managed data warehouses on PostgreSQL and BigQuery (GCP)
- Automated deployments using Docker and Kubernetes, managed CI/CD via GitLab

Data Engineer, Nordic Data Solutions (2018 - 2021)

- Built ETL jobs in Python for retail analytics clients
- Worked with MongoDB for semi-structured data storage

EDUCATION

M.S. in Data Engineering, Technical University of Berlin, 2018

SKILLS

Python, FastAPI, Airflow, Kafka, PostgreSQL, BigQuery, GCP, Docker, Kubernetes, MongoDB, CI/CD, Git, Data Pipelines, Agile
